## WE MAKE IT OUR BUSINESS TO KNOW YOUR BUSINESS

As a business owner, purchasing the appropriate commercial insurance policy is critical to protecting your company's assets and ensuring its continuing viability. Property and casualty insurance protects your business from financial loss resulting from unforeseen circumstances such as accidents, theft, fire and any number of other perils.

At The Brehmer Agency, we work closely with you to understand the nature of your business, diagnose risk exposures, and provide approaches to transfer, reduce or eliminate the risks facing their organizations.

The risks facing any company are unique to that organization. There is no standard insurance program that sufficiently protects all businesses

equally. To ensure appropriate coverage, The Brehmer Agency will design a commercial insurance program to match your organization's unique needs.

## SAFETY AND LOSS CONTROL SERVICES

One of the most effective ways to control costs is to have a safety and loss control program in place. We have a safety professional on staff to assist you with any safety issues including but not limited to:

- Workplace safety inspections
- Safety program review or development
- Safety training
- Job site audits
- Personal protective equipment review
- Workers compensation claims
- Management strategies
- OSHA citation abatement
- Fleet safety issues
- First-aid/CPR training
- Machine guarding assessments

This service is provided to you at minimal or **no additional cost**. Businesses who take advantage of this service can expect fewer claims. This results in a more favorable rating with insurance companies and most importantly to our clients, reduced premiums.
